

# Olivia Kamdem

Member of the IHI States  
Representatives Group

Scientific Officer, National Contact  
Point Health

DLR Project Management Agency in  
Germany

Olivia Kamdem is working at DLR Project Management Agency as scientific officer for the German National Contact Point Cluster Health (Horizon Europe) since 2020. National Contact Points (NCPs) for Horizon serve as liaisons between the research community and the European Commission, multipliers of information on calls for proposals and framework programme issues. She has been involved as expert in the German SRG delegation since 2022. She is one of the scientific staff members responsible for the “life sciences” themes in Horizon Europe with a special focus on health.

## Previous positions

- National Contact Point (NCP) for Health since 2020
- Advisor Marie Skłodowska-Curie Actions (MSCA) and National contact point European Research Council (ERC), KoWi – Kooperationsstelle EU der Wissenschaftsorganisationen/ European Liaison Office of the German Research Organisations 2017-2019

## Fields of expertise

- European funding programmes
- Research assistant and PhD studies at the Institute of Medicinal Chemistry (*Dr. rer. nat.*) of the technical university of Dortmund (Germany)
- Master in Chemistry from the Goethe University in Frankfurt am Main (Germany)
